## Philosophies & Intentions

- We attempt to pay a fair wage with generous bonuses, fringe benefits and retirement programs. This allows us to keep employee turnover down and provide you with experienced personnel.
- We have donated hundreds of thousands of dollars to various charities since 1976.
- We attempt to give you several product brand choices at competitive prices in most parts and tool categories.
- We attempt to be your one-stop heavy-duty parts store. If we don't have the part you require in stock, our experienced personnel know where to find it in most situations.
- We attempt to be your "low-cost" parts supplier. "Low-cost" does not always mean cheapest price. Please consider our experienced personnel, deliveries, prepaid freight programs, vendor assistance, parts availability and total inventory offerings when calculating your cost on parts purchases. If you feel however, that our prices are too high compared to competitors, advise us and in most cases we will match or beat that price.

## Freight Programs

- 1) Our salesmen and delivery personnel deliver parts free in most areas in the western half of the lower peninsula.
- 2) In other areas in the Midwest, we ship most items prepaid and share freight costs on others. Items like brake drums and a few other categories are shipped collect.
- 3) We will pay you to pick up orders at our store if the following requirements are met:
  - a) Order totals at least \$500
  - b) We have 24 hours to pull the order (We may have it ready much sooner) - See details on our website

## Telephone

We have a nationwide toll-free phone number (800-632-2010). This number will be answered by a real, live person who can probably assist you by taking your order or at least connect you with somebody who can. You will never have to talk to a machine or leave voice messages in hopes of getting a response. You may also communicate with us via email. Our email address is [wmfp@chartermi.net](mailto:wmfp@chartermi.net)
