## Western Michigan Fleet Parts, Inc. – Company Profile

Western Michigan Fleet Parts opened for business on January 2 of 1976 with two full-time employees. We currently have 26 full-time employees who have hundreds of years experience in the heavy duty replacement parts business.

Here are some things that make us unique.

- We attempt to pay a fair wage with generous bonuses, fringe benefits and retirement programs. This allows us to keep employee turnover down and provide you with experienced personnel.
- We have donated 10% of net profit before taxes to various charities each year since 1976.
- We attempt to give you several product brand choices at competitive prices in most parts and tool categories.
- We attempt to be your one-stop heavy-duty parts store. If we don't have the part you require in stock, our experienced personnel know where to find it in most situations.
- We attempt to be your "low-cost" parts supplier. "Low-cost" does not always mean cheapest price. Please consider our experienced personnel, deliveries, prepaid freight programs, vendor assistance, parts availability and total inventory offerings when calculating your cost on parts purchases. If you feel however, that our prices are too high compared to competitors, advise us and in most cases we will match or beat that price.

### Telephone

We have a nationwide toll-free phone number (800) 632-2010. This number will be answered by a real, live person who can probably assist you by taking your order or at least connect you with somebody who can. You will never have to talk to a machine or leave voice messages in hopes of getting a response. You may also communicate with us via email. Our email address is wmf@chartermi.net
