SHUR-TRAK II™ PREMIUM CABLE TARP

SC001FL-0318

FEATURES AND BENEFITS

- Twist-Lok™ Bow Shanks
- Rolling Wheel Wind Guards or Continuous Wind Anchors
- Cable Tension Scale or Adjustable Rear Pulley
- Rear Bow Stabilizer
- Electric Upgrades Available

Moves the bows out of the way for wide-open loading on dump bodies, belly dumps and end dumps! Fully deployed, the standard tarp-over-rail design gives coverage several inches over the side rail to shed water better. If water resistance is not a factor, our Short-Stop™ tarp option will eliminate friction, helping to extend the life of your tarp. (The tarp stops short of the inside rail.)

A universal landing with front cover is available in flat or raised style. The bolt-together design allows for trailer flex and offers easy installation. It squares radius corners and can be mounted out up to 18 inches on square corners for additional loading space.

Check our website www.wmfleetparts.com for old "TruckTrader" ads and other promos and service information.
